

Carla Zummak-Fredrick, Chief Product Officer of Teaching and Learning at Infinite Campus, has worked in the software industry for 25 years. She began her career as a Software Engineer, joining Infinite Campus in 2008. Carla comes from a family of educators and joined Infinite Campus where technology and education intersect was a natural fit. As an engineer, she worked in many areas of the Student Information System, including an early version of the Gradebook, Behavior functionality, and Schedule Wizard. In 2016, she transitioned into a development manager role within the Student Administration department. There, she oversaw the development of Early Warning, Blended Learning, and showed an ability to work strategically across the organization. As CPO, she helped direct the implementation of Cross District Enrollment which enables students to take courses in other Infinite Campus schools within the state. She is committed to providing teachers with everything they need to do their best work within one system. The Infinite Campus Learning Management System will be the nexus of data providing insights to help inform and guide teachers and administrators. Carla is also a champion of security, helping reimagine a digital learning partner program so that all tools can be seamlessly and securely accessed and utilized through Infinite Campus. Carla earned a BA in Computer Science from the College of Saint Benedict.
